NECTARIA LITHOPS

A Cell Nectar for a D-Skin

IGNITE VITAMIN D PRODUCTION *through the skin*

An active from Lithops stem cells that optimizes skin microenvironment increasing vitamin D synthesis

MAKE YOUR SKIN SHINE FROM THE INSIDE OUT!

VOLUMIZE · GLOW · REVITALIZE

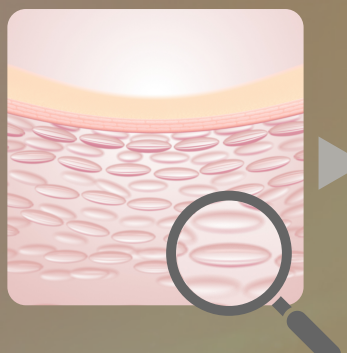
Known as **Living stones**, Lithops is a plant specialized in the **management of water, space**, and **light** in very extreme dry conditions.

#GET A D-SKIN

A **D**ewy skin
A **D**eeply hydrated skin
A **D**-lighted skin
A **D**-Approach for Sun Care

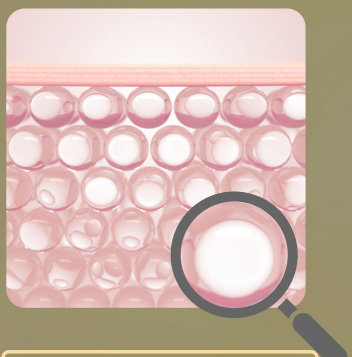
HOW DOES IT WORK?

INEFFICIENT MICROENVIRONMENT



Poorly structured skin, cell, and membranes

OPTIMIZED MICROENVIRONMENT



Strongly structured skin, cell, and membranes

STRONG SPATIAL ORGANIZATION OF CELL MEMBRANES

MAXIMIZING LIGHT USE

BOOSTING DEEP WATER RESERVES

OPTIMIZING VITAMIN D ACTIVATION

PRESERVATIVE FREE · ECOCERT COSMOS APPROVED · PRESERVING BIODIVERSITY · 99.60% Natural Origin ISO 16128 · MICROBIOME COMPATIBLE

vytrus biotech

A PROVEN EFFICACY TO GET A D-SKIN

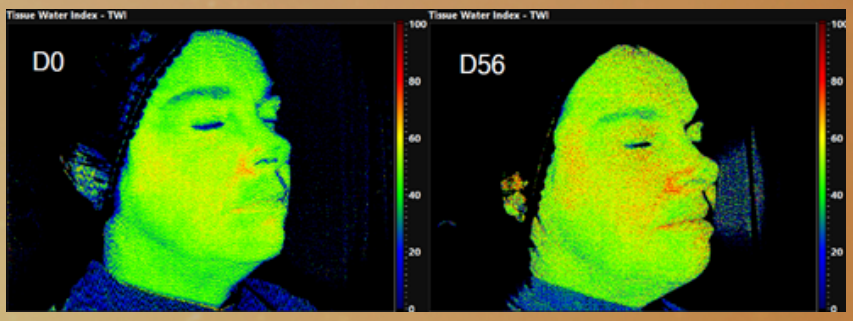
SKIN DEWINESS IMPROVEMENT

Nectaria Lithops increases luminosity & reduces skin oiliness

17% of skin dewiness increase

SKIN PERFECTIONING AND MATTIFYING EFFECT

DEEP SKIN HYDRATION INCREASE



Nectaria Lithops increases the deep skin hydration

123%

CHEEK VOLUME BOOSTER

UP TO +3.5 CM^3

Dermal filler-like effect

SKIN OXYGENATION

Nectaria Lithops rises tissue oxygenation (StO2) **by 34%** vs placebo

IMPROVING SKIN MICRO-CIRCULATION

MORE OXYGENATED SKIN

INCI

Lithops Pseudotruncatella Callus Lysate (50%)

DOSAGE

Suggested use level: 1 -3 %

FORMULATION

Dispersible in ethanol (≤ 20%), water and oils. Incorporation during the cooling phase (<40°C)
