Actives

Antibacterial

Trade Name	Leaflet	INCI	Description	Baby Care	Hair Care	Make Up	Oral Care	Skin Care	Toiletries	Cosmos - Ecocert	IECIC - China
Biostat		Copper Usnate, Ethoxydiglycol	Usnic acid copper salt, natural derived from lichens (<i>gen. Usnea</i>), having antimicrobial activity against Gram ⁺ bacterial strains and some fungi. Suitable for deodorant and intimate hygiene cosmetic products. <i>In vivo</i> antidandruff efficacy (leave on test).		•			•	•		
Evosina® 100		Sodium Usnate	Usnic acid sodium salt, natural derived from lichens (<i>gen. Usnea</i>), having antimicrobial activity against Gram ⁺ bacterial strains. Particularly suggested for glycol free deodorant and acne prone skin cosmetic products.		•		•	•	•	•	•
Evosina® GP Green		Propylene Glycol, Sodium Usnate	Usnic acid sodium salt, natural derived from lichens (<i>gen. Usnea</i>), in natural origin propylene glycol. Antimicrobial activity against Gram ⁺ bacterial strains. Antidandruff efficacy clinically proven (rinse off test). Antibiofilm efficacy on specific bacteria for oral care applications.		•		•	•	•	•	•
Vari® Stan PE		Propanediol, Garcinia Mangostana Peel Extract	Active ingredient extracted from the fruit of <i>Garcinia mangostana</i> , a "superfruit" recognized for its high antioxidant properties. Antimicrobial activity against Gram ⁺ bacterial strains (<i>e.g. Staph. epidermidis, Propionibacterium acnes</i>), long lasting deodorant efficacy and immediate soothing action were demonstrated by <i>in vitro</i> and <i>in vivo</i> studies.		•	•		•	•		•

Emollient

Trade Name	Leaflet	INCI	Description	Baby Care	Hair Care	Make Up	Oral Care	Skin Care	Toiletries	Cosmos - Ecocert	IECIC - China
Avogelia® NF RSPO MB		Aqua, Caprylic/ Capric Triglyceride, Glycerin, Persea Gratissima Oil, Potassium Cocoyl Hydrolyzed Oat Protein, Sodium Cocoyl Amino Acids	Polyvalent and versatile ingredient, plant derived. The lipoproteic fraction and the high avocado oil content provide unique dermo-compatible emulsifying and emollient properties. Widely compatible with different classes of ingredient, it gives a silky and light texture to final formulations. Suitable for hot and cold processes.	•	•	•		•	•	•	•
Avogelia® DS RSPO MB		Aqua, Glycerin, Persea Gratissima Oil, Sodium Cocoyl Amino Acids	Modern surfactant agent, plant derived. The lipo-amino acids of vegetable origin (rice) and avocado oil provide dermo-compatible emolliency combined with a gentle cleansing action. Widely compatible with most of the common surfactants, it is able to vehicle its oily fraction within a detergent formulation without compromising its transparency.	•	•			•	•	•	•

Moisturizing

Trade Name	Leaflet	INCI	Description	Baby Care	Hair Care	Make Up	Oral Care	Skin Care	Toiletries	Cosmos - Ecocert	IECIC - China
Hydroveg® VV		Allantoin, Aqua, Diglycerin, Hydrolyzed Wheat Protein, Lactic Acid, Lysine, PCA, Sodium PCA, Sorbitol, Urea	Moisturizing complex designed according to Natural Moisturizing Factor (NMF) composition having fast moisturizing efficacy and a favorable action on cellular turnover, assessed by <i>in vitro</i> and <i>in vivo</i> studies.		•			•	•		•
Hydroveg® R		Allantoin, Aqua, Diglycerin, Hydrolyzed Rice Protein, Lactic Acid, Lysine, PCA, Sodium PCA, Sorbitol, Urea	Moisturizing complex designed according to the Natural Moisturizing Factor (NMF) composition. High affinity with skin and hair. Fast moisturizing efficacy, restores AQP3 levels and improves skin brightness. Improves hair structure and gloss. Gluten free.		•			•	•		•

Delivery system

Vari[®]
Dextrin

Delivery system for active ingredients obtained through an inclusion process between Cyclodextrins (**host molecules**) and an active ingredient (**guest molecule**).

The active ingredient is encapsulated within the cavity of the host molecule. The inclusion occurs in a reversible way, conferring precise properties of **“controlled release”** to the product.

Its advantages include prolonged **bioavailability** of the active ingredient over time, **higher stability** of the active ingredient, and a **significant reduction in potential irritative phenomena**.

Trade Name	Leaflet	INCI	Description	Baby Care	Hair Care	Make Up	Oral Care	Skin Care	Toiletries	Cosmos - Ecocert	IECIC - China
Vari [®] Dextrin Menthol 20		Cyclodextrin, Menthol	Complex with instant refreshing effect. Menthol also has decongestant, antipruritic, antiseptic properties.		•	•		•	•		•
Vari [®] Dextrin Menthol 50		Cyclodextrin, Menthol	Complex with instant refreshing effect. Menthol also has decongestant, antipruritic, antiseptic properties. Effective as a vasodilator and with mild anesthetic activity.		•	•		•	•		•
Vari [®] Dextrin Caffeine 50		Cyclodextrin, Caffeine	Complex with lipolytic properties, ability to stimulate drainage. Counteracts fluid retention associated with cellulite. Effective in the protection and stimulation of hair bulbs.		•			•	•		•
Vari [®] Dextrin Vitamin C 20		Cyclodextrin, Ascorbic Acid	Complex with antioxidant power that effectively counteracts the action of free radicals by promoting an increase in collagen production. Effective in providing a deep moisturizing activity.		•	•		•	•		•

Trade Name	Leaflet	INCI	Description	Baby Care	Hair Care	Make Up	Oral Care	Skin Care	Toiletries	Cosmos - Ecocert	IECIC - China
Vari® Dextrin Vitamin E Acetate 15		Cyclodextrin, Tocopheryl Acetate	Complex with antioxidant properties that counteracts cellular aging, making it one of the most active substances against free radicals. The complex on a topical level has a moisturizing, anti-inflammatory and soothing action.			•		•	•		•
Vari® Dextrin Niacinamide 20		Cyclodextrin, Niacinamide	Multifunctional complex that strengthens the skin barrier, reduces pigmentation, promotes elasticity and counteracts skin aging. The complex has also the property of regulating sebum production.		•	•		•	•		•

Hydrolyzed proteins

Keratin

Trade Name	Leaflet	INCI	Description	Baby Care	Hair Care	Make Up	Oral Care	Skin Care	Toiletries	Cosmos - Ecocert	IECIC - China
Vari® Ker 100		Hydrolyzed Keratin, Keratin Amino Acids (alternative)	Purified keratin amino acids with hair restructuring and reinforcing properties. It improves the structure of damaged hair fibers, helps the cohesion of hair cuticles and skin corneocytes, reinforces weak nails. Suitable for colorless solutions and white emulsions.		•	•		•	•		•
Vari® Ker WL		Aqua, Hydrolyzed Keratin	Keratin lysate derived from wool, rich in cysteine. It performs a substantive and protective action on damaged hair. Suggested for hair care rinse off and leave on products.		•			•	•		•
Vari® Ker Green		Aqua, Hydrolyzed Corn Protein, Hydrolyzed Pea Protein, Hydrolyzed Rice Protein, Hydrolyzed Soy Protein	Vegetable peptides from pea, corn, rice and soy designed to mimic hair keratin and perform a protective and combing effect on the hair. Ideal for leave on / rinse off hair care applications.	•	•	•		•	•		•

Grains

Trade Name	Leaflet	INCI	Description	Baby Care	Hair Care	Make Up	Oral Care	Skin Care	Toiletries	Cosmos - Ecocert	IECIC - China
Avenosol		Hydrolyzed Oat Protein	Oat bran protein lysate. Provides film forming, moisturizing and soothing properties.	•	•			•	•	•	•
Granosol® 100		Hydrolyzed Wheat Protein	Wheat protein lysate. The molecular weight distribution provides balanced moisturizing and film-forming properties protecting the skin from the irritating effects of surfactants.		•			•	•	•	•
Granosol® L		Aqua, Hydrolyzed Wheat Protein	Wheat protein lysate. The molecular weight distribution provides balanced moisturizing and film-forming properties protecting the skin from the irritating effects of surfactants.		•			•	•		•

Silk

Trade Name	Leaflet	INCI	Description	Baby Care	Hair Care	Make Up	Oral Care	Skin Care	Toiletries	Cosmos - Ecocert	IECIC - China
Protean S		Serica Powder, Silk Powder (alternative)	Fine powder, preserving the original structure of natural silk. It forms a breathable protective film helping to maintain the correct degree of hydration of the skin. Sweating and sebum absorbing properties. Texture enhancer.			•		•			•
Sericina P		Hydrolyzed Sericin, Sericin (alternative)	Silk Protein (<i>sericin</i>) obtained from silk wastes of the textile industries, possessing remarkable moisturizing, protective and conditioning properties. Strong affinity with skin keratin.		•	•		•	•		•
Vari® Silk P		Hydrolyzed Silk	Silk Protein (<i>fibroin</i>) obtained from silk wastes of the textile industries, possessing remarkable film forming and conditioning properties.		•	•		•	•		•

Natural powders

Fillers

Trade Name	Leaflet	INCI	Description	Baby Care	Hair Care	Make Up	Oral Care	Skin Care	Toiletries	Cosmos - Ecocert	IECIC - China
Vari® CC-O		Calcium Carbonate (and) Magnesium Carbonate (and) Hydrogenated Ethylhexyl Olivatate (and) Hydrogenated Olive oil Unsaponifiables*	Dolomia powder, containing calcium and magnesium carbonate. The mineral is an upcycled natural material coming from marble extraction. The coating with olive oil derivatives gives the powder a soft and creamy texture, as well as conditioning properties to the skin. Suitable for anhydrous formulations and emulsions thanks to its unique silica-like, matt, creamy and not dry finish effect in the final product.			•	•		•	•	•
Vari® Carb		Calcium Carbonate (and) Magnesium Carbonate	Dolomia powder, containing calcium and magnesium carbonate. The mineral is an upcycled natural material coming from marble extraction. It can be used as a thickening agent in powders mix. Opacifier and polish agent for oral care applications.				•	•	•	•	•

* Alternative INCI: Dolomite (and) hydrogenated ethylhexyl olivate (and) hydrogenated olive oil unsaponifiables.

Since 1926 **Variati**
is an international supplier and
Italian distributor of **natural** and
biotechnological raw materials
for **cosmetics** and **nutraceuticals**.

Variati Specialties,
our branded ingredients
derived from **sustainable**
and **renewable sources**,
include **antibacterial**,
moisturizing, **emollient actives**
and **protein hydrolysates**.
